As a Liquor Store Operator, you know what's important to your business, at STG, we understand this. The right inventory at the right time, reliable and knowledgeable staff, business tools that work when you need them and most importantly customers!

For more than 15 years we have been providing POS Solutions to the Liquor Store industry that are designed for the harsh and fast paced environments you work in. We understand that you need to know the inventory on hand, what's sold and what needs to be purchased. You need a POS System that will assist your employees in selling more products, a system that will collect the data on how your business is doing and a system that can track and reward your customers for their loyalty to you. Utilizing the largest hardware and software companies in the world, we have solutions that will get the most out of your system investment in the shortest amount of time.

Scanning, Credit Cards, Gift Cards, Promotions, Reporting, Purchasing and Receiving, it's all in there. And we are here 24 hours a day, 7 days a week to make sure that it all works when it's supposed to.
